## Announcement

### Workshop on CD34+ Enumeration for SCT

The haematopoietic stem cell content of the graft remains a critical factor for the success of transplantation. Several guidelines have been published. A workshop on the topic will be held at the forthcoming SASCeTS conference in Cape Town.

Venue: President Hotel, Sea Point  
Date & Time: 12 February at 12.00-13.00pm.

#### Program:

Introduction to Flowcytometry	Glenda Davidson
The ISHAGE guidelines.	Jill Blackbeard
Single and dual platforms for CD34+ quantification	
The ProCOUNT (Becton – Dickinson) method of CD34+ enumeration.	Morgan Maxwell
Beckman Coulter Flow-Count single platform	Chrisna Durand
Cell viability and graft integrity	Maureen Stein
Round Table Discussion	All
